Dear Mr Walker

### **Your application for access to government information – PA17/125**

I refer to the mediation agreement between yourself and the Ministry of Health signed on 9 February 2018. The Ministry will now complete a new access application under the *Government Information (Public Access) Act 2009* (GIPA Act) for the following information:

- *Fire engineers report for the Northern Beaches Hospital and the product identification details of items CLA01, CLA02, CLA005 and CLA008.*

The application should be decided with documents released to you by **Friday, 23 February 2018**. To expedite the process, the Ministry has waived the application fee of \$30. This is allowable under section 127 of the GIPA Act.

### **Inclusion of details in disclosure log**

The government information you are seeking may be of interest to other members of the public. If this is the case, the *GIPA Act* requires us to record the following details about your access application in our 'disclosure log':

- the date on which your access application is decided
- a general description of the government information released
- whether any of that information is available to other members of the public, and
- if so available, how it can be accessed.

You have a right to object to these details being included in our disclosure log, in certain circumstances. For example, you might object if the government information you seek contains your own personal information or concerns your business, commercial, professional or financial interests. However, even if you do object, we may still decide to include details about your access application in our disclosure log.

If you have questions about the GIPA process, please contact me on (02) 9391 9263.

Kind regards

James Dagger
